

STATIONARY AWNINGS

Spear & Decorative Awnings

The Spear and Decorative awnings, although around for centuries, have been reborn as an architectural favorite. While practical, versatile and stylish, these awning styles are a perfect way to add shade with a decorative touch. Today's typical Spear awning is built to resemble black wrought iron, adding flair and elegance. By choosing our decorative awnings, with their cast iron finials and bold scrolls, you can enjoy years of shade and compliments from friends and neighbors.

-  Sunbrella-certified Fabric
-  10-year Warranty
-  30+ Powder-Coated Frame Colors
-  100+ Solid and Stripes

Versatile

Inspired by a combination of French and Italian themes, these fixed awnings add style to both classic and contemporary home décor.

Practical

Unlike most other awning companies, Accent Awnings® fabricates decorative awnings utilizing a welded frame to support the fabric. As with all Accent made fixed awnings, each is custom designed to your requests.

Fixed vs. Stationary Awnings

The terms "Fixed" and "Stationary" are interchangeable, consisting of a welded metal frame to which an awning fabric is attached. They are manufactured in many shapes and sizes, all custom made to order.
